

United States Postal Service Northwest Station

Challenge: Create a postal station in an established residential neighborhood to serve immediate surroundings as well as distant rural and suburban patrons.

- 18,500 square feet of new construction
- workroom, offices, locker rooms, loading bays
- truck well, parking facilities, storage of postal delivery vehicles
- sensitive to environment and saving of trees
- separate patron delivery and service circulation on challenging site
- fueling, wash station
- Distinguished Building Award, American Institute of Architects Grand Valley
- Grand Rapids, MI
