

## W.J. Hayes State Park Sewer System Improvements

*Challenge:  
Decommission existing  
on-site sewage disposal  
systems and connect  
existing pump stations  
to public sewer while  
minimizing disturbance  
to parkland and  
disruption of public use  
of the park.*

- refurbish and reuse three existing pump stations
- provide off-line storage for peak flow attenuation
- add second trailer washout station
- new pump station for trailer washout station
- connect three service buildings to sewer
- MDNR / Lenawee County Drain Commissioner joint project
- Onstead, MI
