

Lake Michigan College The Mendel Center for Arts and Technology

Challenge: Update space planned 10 years ago but never built that would serve the entire community.

- 147,220-square-foot addition and renovation
- advanced technology center; 1,500-seat auditorium and lecture space; 252-seat little theater; space for dance and music curricula; seminar and conference rooms; facilities for production, storage, and distribution of audio/visual equipment; teleconferencing room; hospitality space; offices for corporate and community development; a resource library
- expands training programs for life-long education and training
- serves the entire community
- addresses a broad array of computer, management, executive, and customized technical skill training as dictated by the needs of business and industry
- Benton Harbor, MI
