

Bath Community Schools Renovations

Challenge: Transform the existing aging elementary, middle, and high school buildings to meet 21st century educational standards on a tight budget and extremely tight schedule.

- district-wide mechanical, electrical, structural, telecommunications, energy, roofing, windows, safety, and barrier-free upgrades.
- completely rebuild core of elementary school and add gymnasium, completely revise site circulation, parking, and playgrounds.
- renovate middle school shop into media center, renovate classrooms, offices, cafeteria, and improve security.
- renovate high school science labs, media center, several classrooms, office areas, and make exterior upgrades and repairs.
- additions and renovations were designed carefully to be completed in a single summer
