

Godwin Heights Public Schools Science Center

Challenge: Convert a 75-year-old building into a place that excites students to explore the sciences.

- classrooms/labs with state-of-the-art power, data, and communication infrastructure
- staff offices and lab prep rooms, greenhouse, audio/visual production room, and special projects rooms
- customized laboratory tables support experimental and computer-based activities
- AIA Grand Valley Distinguished Building Award
- Associated Builders & Contractors Award of Excellence (creative use of materials)
- Wyoming, MI
