

Ovid-Elsie Area Schools Middle School and Media Center

Challenge: Develop and incorporate a technology network throughout the district; construct a new intermediate grades wing; construct a new media center that would be shared by the junior high and high schools; and bring all facilities into compliance with ADA and Michigan barrier-free regulations.

- 13,700-square-foot junior/senior high school media center
- 14 classrooms, two science rooms, technology area, cafeteria, kitchen, gymnasium, locker rooms, office areas
- grade level clusters focused around team concepts
- state-of-the-art technology incorporated into the media center and media production areas
- American School & University Architectural Portfolio Honor of Design Excellence
- Elsie, MI
